

Yomu Travel — Korea Starter Kit

Read Korea. Then go. Free field kit. Independent. Verify KTX times and blossom forecasts the week you fly. Last structured August 2026.

Classic 10-day spine

Days	Base	Job
1–5	Seoul	Palaces + one nightlife district + neighborhoods. T-money from day one.
6	KTX	Seoul → Busan. Afternoon market or beach walk — not both if you arrive late.
7–8	Busan	Coast + markets. Gamcheon only if hills are the point.
9–10	Jeju optional	Only with spare days. Otherwise second Seoul rest / day trip.

Transit

T-money (or compatible) for metro/bus. KTX is the spine — book seats on popular Friday/Sunday runs. You rarely need a car in Seoul proper.

Blossoms (year-labeled)

VisitKorea 2026-style forecasts: south coast often late March; Seoul often early April. Treat as a window, not a single date. Heat and monsoon later in summer change the whole plan.

Sleep logic

Seoul: Jongno / City Hall / Hongdae depending on whether you want palaces, first-timer orientation, or nights. Busan: near a metro that hits both market and water without a 40-minute hop every meal.

Packing / etiquette

Metro stairs are real — pack light. Convenience-store culture is a feature. Voice down on late buses. Temple and palace grounds: modest dress is courtesy, not a costume show.
